Smart & Sustainable: Your Trusted Partner in Smart and Sustainable Living

At Schneider Electric, we don't just follow innovation—we lead it. We deliver intelligent, connected home technologies that set new standards in safety, reliability, efficiency, and sustainability.

Innovation that Empowers

From smart energy management to seamless home automation, our solutions are designed to **empower modern lifestyles**. We integrate cutting-edge energy and process technologies to ensure that every home is not only **Smart**—but also stylish and sustainable with complete protection.

A Legacy of Leadership in India

With over **60 years of excellence in India**, Schneider Electric has built a legacy of trust, performance, and innovation. Our deep local expertise, combined with global leadership, makes us the **preferred partner for homeowners, developers, and professionals** across the country.

Built on Values. Driven by Purpose

At Schneider Electric, our vision goes beyond technology—we're committed to **purpose-driven innovation** that creates real impact. By embracing **open standards** and nurturing **collaborative ecosystems**, we build partnerships grounded in our core values of **Meaningful Purpose, Inclusivity, and Empowerment**.

Connected by Innovation. United for a Better Future.

Homes account for more than **one-third of global carbon emission**—making them a critical focus in the fight for a sustainable future. By coming together, we can build homes and communities that are not only smarter, but also more compassionate to the planet. Join us in shaping a future that's **brighter, more inclusive, and sustainable**—for generations to come.

Circuit Protection Devices

Miniature Circuit Breakers

Robust architecture

- Cable automatically guided to the correct position; terminals with guard
- Insulated terminals IP20

Line load reversibility

- The line connections can be made either at top or bottom terminal, thus providing greater flexibility

Sturdy mechanism

- Trip free mechanism
- Fast closure mechanism improves contact life

Available in 6kA & 10kA

Connection

- Bottom/top: tunnel terminals
- Comb bus bar compatibility
 - Top: Yes, for Pin type
 - Bottom (biconnect): Yes, for Pin/Fork type

Positive contact indication

- Suitable for isolation
- Indicates physical opening of the contacts and allows operations on the downstream circuits

Residual Current Circuit Breakers

Test button

- For regular testing of RCCB

Robust architecture

- Cable automatically guided to the correct position; terminals with guard
- Insulated terminals IP20

Available in 30mA, 100mA & 300mA sensitivity

Connection

- Bottom/top: tunnel terminals
- Comb bus bar compatibility
 - Top: yes, for Pin type
 - Bottom (biconnect): yes, for Pin/Fork type

Positive contact indication

- Suitable for isolation
- Indicates physical opening of the contacts and allows operations on the downstream circuits

Surge Protection Device

Robust architecture

- Cable automatically guided to the correct position; terminals with guard
- Insulated terminals IP20

Visible end-of life indication

Available in 20kA & 45kA

Isolator

Line load reversibility

- The line connections can be made either at top or bottom terminal, thus providing greater flexibility

Suitable for positive isolation

Available upto 100A

Distribution Boards

IK08
tested

IP-30
Single door
IP-43
Double door

- Intuitive doorknob design & reversible door
- Suitable for surface and flush mounting
- Earthed door assembly provides safe uninterrupted earthing continuity
- Combi-head screws for tool flexibility

Available Variants : Metal Enclosures, Plug & Sockets, SPN, TPN, VTPN & Phase Selector
